

FEATURES & ELECTIVE ADD-ONS

A SYSTEM TO SUPPORT
STUDENT SUCCESS

State-funded system components.

Kuder Navigator®

The system features Navigator, a college, career, and community readiness platform for students in grades 6-12. Students complete career interests, skills, and work values assessments to uncover personal insights. But that's just the beginning: they'll also create multi-year course plans, gain financial literacy skills, and begin to set and achieve their future goals.

Accessing localized course information is seamless with Navigator's integration with TRIAND. Plus, teachers can connect college and career planning to the classroom using the companion curriculum and course, *Direct Your Future™*.

Student Success Plans

Navigator also helps districts meet requirements of Act 930 by providing a framework to support the development of student success plans, exploration of education and careers, and preparation for life after high school.

College Access & Prep

For college-bound students, Navigator includes test prep, a college match and admissions likelihood tool, CommonApp and the ability to track college and scholarship applications, and transcript requests using Parchment.

Tracking & Reporting

The system's administrative account for teachers, counselors, and other administrators makes Student Success Plan management and reporting easy. It empowers educators with key insights and data for tracking progress and supporting students career journey.

Single Sign-On & Account Provisioning

Kuder provides both single sign on (SSO) and account provisioning from a district's SIS. This means when a student goes to the Kuder system via Clever SSO, they are automatically logged in using school credentials.

Webinar Training & Support

Kuder is offering proactive training so system users gain an understanding of the system. Arkansas educators can participate in one-hour customized webinars, and also have unlimited access to standard webinars and online trainings. Our support team is also here to help and available via phone, email, and live chat.

FREE Access for Students in Grades 6 & 7

The ADE covers licensing fees for students in grades 8-12. *Kuder will provide system access for students in grades 6 and 7 at no additional cost!*

Arkansas-Specific Features & Customizations

The Arkansas College and Career Planning System (ACCPs) is designed to meet the specific needs of Arkansas students, families, and educators. Within the ACCPS you'll find:

- ✔ Graduation planning tool to support Student Success Plans.
- ✔ Connection to course lists for participating districts.
- ✔ State-specific labor market data and information.
- ✔ Unique system branding.
- ✔ The ability to export data for ADE Research & Technology.

AVAILABLE ADD-ONS

Promote & Manage Local Pathways

Add Pathways Link to Navigator to seamlessly connect student assessment results to your specialized programs and CTE courses. The tool helps educators promote and manage programs while ensuring students are selecting pathways that meet graduation requirements and align with their personal interests and skills.

Professional Development

The Kuder Career Advisor Training® (CAT) program equips practitioners with meaningful learning opportunities, techniques, and resources they can immediately implement.

CAT is offered at two levels to provide the best understanding and guidance. Ask us about CAT Essentials™ and CAT Advanced™, available online to fit every budget and schedule. The Advanced course offers international certification.

Kuder Galaxy® — Elementary Career Awareness

Kuder Galaxy is an online career awareness system for students in grades Pre-K through 5 that makes learning about the world of work fun by igniting the playful spirit of young learners through a series of educational games, activities, and experiences. Ask about the best option for your district or school, and ensure a full Pre-K through 12 career development experience for your students.

“Kuder has earned a strong reputation for customizing our platform to meet local needs. We’re thrilled to continue to bring our technology to Arkansas, where we’ve been helping students dream big and plan accordingly since 2002.”

Katie Harrington

Director of Education
Kuder

The most successful teachers, counselors, and career coaches never stop learning. Kuder's professional development courses the latest evidence-based strategies, trends, and best practices.
